SERRATURE • LOCKS

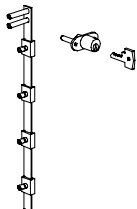

Serratura per contenitori bassi e medi.
Lock for low and medium size storage units.

9VS210.0202.03 *nicel/nichel*

Serratura per contenitori alti.
Lock for tall storage units.

9VS330.0172.03 *nicel/nichel*

Serratura per contenitori bassi a 4 cassetti.
Lock for low storage units with 4 drawers.

9VS231.1172.03 *nicel/nichel*

DESCRIZIONE TECNICA

SCRIVANIE E TAVOLI RIUNIONE

Piani per scrivanie, tavoli riunione e allunghi costruiti con pannelli in agglomerato ligneo di pioppo (leggero) sp. mm. 40, placcati a caldo con impiallacciatura di "rovere rigato americano"; bordi dello stesso legno di spessore 3 mm. arrotondati. Tutti i piani per tavoli e scrivanie con sostegno "a gamba" hanno di serie il profilo in alluminio inserito nello spessore. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Versioni con piani in cristallo satinato e temperato di spessore mm. 15 con angoli smussati.

Sostegni realizzati in due versioni :

-a quattro gambe con struttura interna portante in alluminio rivestito per metà da fianchetti in legno e metà con profilo in estruso di alluminio millerighe agganciato a "scatto". Possibilità di passaggio cavi all'interno del sostegno.

-con fianchi in legno assemblati a "telaio" mediante l'inserimento di un profilo in alluminio di spessore 4 mm. Rinforzi orizzontali con profilati di alluminio da mm. 45x47. Entrambi i tipi di sostegni hanno le stesse finiture dei piani e alla base delle piastre quadrate in alluminio anodizzato con piedini regolabili.

Travi sottopiano realizzate con profilato in alluminio da mm. 45x47. Collegamento delle travi al piano tramite viti UNI M6x15 a testa bombata. Tutti i particolari di alluminio sono anodizzati con trattamento di ossidatura.

CASSETTIERE (con serratura di serie)

Struttura della cassettera costruita con pannelli in agglomerato ligneo di pioppo (leggero), placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. I fianchi (sp.40 mm.) sono assemblati con il top superiore (sp. 15 mm.) mediante l'inserimento di un profilo in alluminio di spessore 4 mm. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Schienale in rovere.

Versione "portante" con piedini regolabili montati su piastre quadrate in alluminio anodizzato; versione "con ruote" piroettanti diam. 80 a doppio battistrada anti-affondamento su moquettes, colore grigio alluminio.

Cassetti completamente in alluminio anodizzato argento, attrezzabili anche con portacartelle. Cassettino portacancelleria provvisto anche di un separatore in legno.

Guide "quadro" in acciaio con scorrimento mediante sfere di precisione; chiusura automatica negli ultimi 60 mm. e blocco in apertura per scongiurare cadute accidentali. Nel caso di portacartelle, le guide sono ad estrazione totale.

Serratura con asta in acciaio e fermi di battuta a chiusura simultanea dei cassetti direttamente sulle spondine; chiave cromata in doppio esemplare.

Le **maniglie** sono in alluminio anodizzato argento, di forma quadrata.

PORTA-COMPUTER E PORTA-MONITOR

Struttura costruita con profilato in alluminio anodizzato mm. 25x25, collegato da apposite giunzioni.

Piani e schienale con pannelli in agglomerato ligneo di pioppo (leggero) sp. 20 mm., placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Schermo frontale, in vetro temperato satinato spessore 8 mm., ancorato con distanziali alla struttura; è munito di un'asola che favorisce la presa per lo spostamento.

CONTENITORI

Struttura dei contenitori costruita con pannelli in agglomerato ligneo di pioppo (leggero), placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. I fianchi

(sp.40 mm.) sono assemblati con il top superiore (sp. 15 mm.) mediante l'inserimento di un profilo in alluminio di spessore 4 mm. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Gli interni sono realizzati in nobilitato melaminico colore grigio alluminio.

Piedini regolabili montati su piastre quadrate in alluminio anodizzato.

Ante in legno costruite con pannelli in agglomerato ligneo di pioppo (leggero) sp. 20 mm., placcate a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. Serratura a richiesta sulle ante legno.

Ante in cristallo costruite con telaio in alluminio anodizzato e vetro temperato satinato.

Tutti i contenitori possono essere realizzati con cassetti e portacartelle esterni, costruiti come quelli delle cassettiere.

Le **maniglie** sono in alluminio anodizzato di forma quadrata.

CONTENITORI DI SERVIZIO (con serratura di serie)

Struttura dei contenitori di servizio costruiti con pannelli in agglomerato ligneo di pioppo (leggero), placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. I fianchi (sp.40 mm.) sono assemblati con il top superiore (sp. 15 mm.) mediante l'inserimento di un profilo in alluminio di spessore 4 mm. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Schienale in rovere.

Piedini regolabili montati su piastre quadrate in alluminio anodizzato.

Gli interni sono realizzati in nobilitato melaminico colore grigio alluminio.

Ante in legno costruite con pannelli in agglomerato ligneo di pioppo (leggero), placcate a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm.

Cassetti completamente in alluminio anodizzato argento, attrezzabili anche con portacartelle. Cassettino portacancelleria provvisto anche di un separatore in legno.

Guide "quadro" in acciaio con scorrimento mediante sfere di precisione; chiusura automatica negli ultimi 60 mm. e blocco in apertura per scongiurare cadute accidentali. Nel caso di portacartelle, le guide sono ad estrazione totale.

Serratura con asta in acciaio e fermi di battuta a chiusura simultanea dei cassetti direttamente sulle spondine; chiave cromata in doppio esemplare.

Le **maniglie** sono in alluminio anodizzato argento, di forma quadrata.

LIBRERIE A GIORNO

Struttura composta da profilati di alluminio anodizzato mm.35x35 e fianchi in legno realizzati a "telaio" placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm.

I fianchi sono assemblati mediante l'inserimento di un profilo in alluminio di spessore 4 mm. Verniciatura in linea con vernici acriliche antingiallenti, in due finiture: rovere "sbiancato" e rovere "tinto moka"; essiccazione in forno a temperatura controllata.

Ripiani costruiti con pannelli in agglomerato ligneo di pioppo (leggero) sp. mm. 25, placcati a caldo con tranciato di "rovere rigato americano"; bordi dello stesso legno di spessore 1,5 mm. Verniciatura come sopra.

Piedini regolabili montati su piastre quadrate in alluminio anodizzato.

DESKS AND CONFERENCE TABLES

Surfaces for desks, conference tables and extensions made of 40 mm-thick (lightweight) poplar wood particleboard panels, hot-laminated with "American oak" fine cut veneer; 3 mm-thick rounded borders of matching wood.

All tops for desks and tables with legs include an aluminium profile in the edge.

On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

Versions with 15 mm-thick satin and tempered glass surfaces and bevelled corners.

Two support versions:

- four legs with aluminium internal carrying structure; half internal structure is clad with wooden panels and the remaining half with a "snap-on" reeded aluminium extruded profile. The cables can be routed inside the support.

- quad legs with of a 4 mm aluminium profile. 45-47 mm aluminium profile horizontal reinforcement. Both support types have the same surface finishes and anodised aluminium square base plates with adjustable feet.

Undermounted beams made of 45x47 mm aluminium profiles.

The **beams** are fastened to the surface by UNI M6x15 crowned-head screws.

All the aluminium parts are oxidised and anodised.

DRAWER PEDESTALS (with lock):

Drawer pedestal **structure** made of (lightweight) poplar wood particle board panels, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood. The side panels (thickness: 40 mm) are fastened to the top surface (thickness 15 mm) by means of a 4 mm-thick aluminium profile. On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

Back finishing panel.

"Load carrying" with adjustable feet mounted on anodised aluminium square plates; 80 mm. diam. castors, dual wheel, for easy gliding action, colour: aluminium grey.

Drawers made of silver anodised aluminium, designed to accommodate filing drawers. Stationery tray with a wooden spacer.

"Quadro" steel **guides** sliding by means of precision spheres; automatic closing in the last 60 mm and opening lock. Fully extendable guides when filing drawers are present.

Lock with steel bar and stops for anti tilt mechanism; chromium-plated double key.

Square anodised aluminium **handles**.

PC-TROLLEYS AND MONITOR STANDS

Structure made of anodised aluminium profile, mm 25x25, connected by special couplings.

Surfaces and back panel made of (lightweight) poplar wood particleboard, thickness: 20 mm, hot-laminated with "American oak" veneer; 1.5 mm-thick rounded borders of matching wood. On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

Front screen made of 8 mm-thick satin tempered glass anchored to the structure by means of spacers; features a finger slot so that it can be easily moved.

CABINETS:

Cabinet **structure** made of (lightweight) poplar wood particle board panels, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood. The side panels (thickness: 40 mm) are fastened to the top surface (thickness 15 mm) by means of a 4 mm-thick aluminium profile.

On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

The cabinet fitments are made of melamine veneer; colour: aluminium

grey.

Adjustable feet mounted on the base in anodised aluminium square plates.

Doors made of (lightweight) poplar wood particleboard, thickness: 20 mm, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood. With locks on wooden doors (on request).

Glass doors with anodised aluminium frame and satin tempered glass.

All cabinets can have external drawers and filing drawers constructed as those of the drawer cabinets.

Square anodised aluminium **handles**.

MOBILE CABINETS (with lock)

Mobile cabinet **structure** made of (lightweight) poplar wood particle board panels, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood. The side panels (thickness: 40 mm) are fastened to the top surface (thickness 15 mm) by means of a 4 mm-thick aluminium profile.

On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

Back finishing panel.

Adjustable feet mounted on the base in anodised aluminium square plates.

The cabinet fitments are made of melamine veneer; colour: aluminium grey.

Wooden **doors** made of (lightweight) poplar wood particle board panels, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood.

Drawers made of silver anodised aluminium, designed to accommodate filing drawers. Stationery tray with a wooden spacer.

"Quadro" steel **guides** sliding by means of precision spheres; automatic closing in the last 60 mm and opening lock. Fully extendable guides when filing drawers are present.

Lock with steel bar and ledge stops for anti-tilt mechanism; chromium-plated double key.

Square anodised aluminium **handles**.

OPEN BOOKCASES

Structure made of mm 35x35 anodised aluminium profiles and "frame"-type wooden side panels hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood.

The side panels are assembled by means of a 4 mm-thick aluminium profile. On-line painting with anti-yellowing paints; two finishes are available: white and mocha finish oak; controlled-temperature drying in furnace.

Shelving units made of 25 mm-thick (lightweight) poplar wood particle board panels, hot-laminated with "American oak" fine cut veneer; 1.5 mm-thick rounded borders of matching wood. Painted as described above.

Adjustable feet mounted on the base in anodised aluminium square plates.
